Doull Ordinance Taken Up by Aldermanic Committee, to Report Tuesday, After Four-Hour Public Hearing.

### CANON CHASE PROPOSES VERY LIBERAL SUBSTITUTE.

Following a four hours' debate over the proposed Sunday ordinance to-day-before the Aldermanic Committee on Laws and Legislation at the City Hall, the committee went into executive session and then decided to report next Tuesday at the regular meeting of the Board of Alderrnen. The committee probably will report favorably on the Doull ordinance. Several members of the committee declared that there existed no reason for accepting any suggested amendment to the ordinance as it stands, and it may now be accepted that the ordinance will be adopted and go into effect the Sunday following the meeting.

Bardgett has had several bad falls. He looks in bad shape. Urban Mac-Donald, who was badly injured early to-day, is now resting comfortably in a private room at the New York Hospkal at the expense of the race management. The official physician, returning from MacDonald's bedside this afternoon, said the rider is a very sick man, but that he will come around all right.

Riders Were Warned. Fogler and Moran, who are tied with Rutt and Stol for the had in the sixday race at Madison Square Garden. are threatened with disqualification for interference with the foreign riders. P. T. Powers, the promper of the contest, told Fogler and Moran to-day that the slightest offense would result in their being declared out of the race, and that in this event they would not get a penny for their week's ridigs.

President Powers wants the race decided on its merits. He appealed to President D. M. Adee, of the National Cycling Association, and R. F. Kelsey, Chairman of the Board of Control, to take the situation in hand.

in the race was notified that at the first signs of interference of any kind with another rider the offender would not only be disquadified, but would not receive a cent of money for the week's work. To see that every man gets an equal deal, President Adee called together the Board of Referees of the A., and they will personally

watch the race until the finish, This action of the officials is due to what looked like a deliberate attempt to-day to keep Dupre in a pocket to prevent him from gaining a lap on Krebs and Vanderstuyft, Logan and to-day Dupres attempted to make up the lap and get on even terms with the leaders, only to be interfered with by others in the race, chiefly Moran and
